Hello and welcome to the website. We have worked hard to deliver you an exceptionally simple to buy and sell products around the world. It is an idea that we started out developing in 2004. That idea evolved into Kraftwurx. What you are seeing is phase 1 of a 3 phase deployment of a software package called Digital Factory . it is the culmination of over 5 years of development efforts resulting in an entirely new way to buy and sell products globally. We hope that you like what you see and welcome your feedback to help us improve the site. Learn about 3D design, sell your ideas to the world, earn money and have fun.

Chris Norman, CEO.
