

NASA 2012 Summer Of Innovation Kicking-Off

Posted by Marco CM - 2012/05/07 16:32

NASA's 3rd annual Summer of Innovation "SOI" project is underway. The project is providing hands-on learning opportunities for middle school students and educators through NASA-unique science, technology, engineering and mathematics "STEM"

SOI uses NASA's out-of-this-world missions and technology programs to boost interest in STEM among middle school students by offering interactive learning experiences. This year, a major portion of the SOI content focus will be on Curiosity, a NASA flagship science mission currently en route to Mars and scheduled to land Aug. 6.
