

## TurboTax not working on Mac

Posted by turbotaxusa - 2020/01/27 20:35

---

If the TurboTax software is not working on your Mac device, you can refer to the following steps in order to fix the trouble

- ☐ Check if your internet connection is not fluctuating and is stable
- ☐ Open the TurboTax software via application folder
- ☐ Restart your modem as well as the router in order to refresh your net connection
- ☐ Clear your trash folder and delete all the temporary and irrelevant files from your computer

Implement all the methods above, and if the issue is still bothering you, it is highly advised to contact TurboTax customer service number and speak to them regarding the matter.
