

How to Reset QuickBooks Admin Password?

Posted by ContactQuickBooks - 2019/07/17 00:50

There are certain situations where the users would come across the need to change their Admin password. To get this done, the users would simply have to follow the below-given steps:

- The users would have to access the QuickBooks Desktop, and at the login window, you would have to click on the 'I forgot my password' link.
- Further, you would have to fill the given form:

- o You would have to enter your license number for the version of QuickBooks Desktop you are using.
- o You have to fill your name, email address, phone number, and ZIP code which you initially used which purchasing the product.
- o Finally, click on OK when all the information that you have entered is accurate.
- o You would then be guided through the process of creating a new admin password.

If you come across any query while using the steps provided, then you can promptly connect with QuickBooks support phone number and seek assistance from trained and experienced professionals.
