Uploading multiple designs at once?
Posted by jsantos - 2011/11/15 13:46

_____

Do sellers have the power to upload multiple designs at once? As in -- what if I had to upload an entire library of stuff?

Sorry for the delay in reply. This message was posted when we had some issues with Forum notifications. We are planning to working on a bulk uploader soon. For the time being you may contact us directly for private FTP access in order to upload a mass of models. Does this answer your question?
