Why is My hp printer offline
Posted by krprince - 2020/05/25 08:47

_____

If you are also facing the same issues we would recommend you to follow the ways given below:

First go to Start > Settings > Devices > Printers & scanners. Next you need to select your printer > Open queue. From the Printer option, make sure "your Printer Offline" is not selected.
Also, you need to check the wireless connection, power cables or network connections to fix the problem.
You can contact the HP experts if you can't fix it on your own.
