

How do I get my HP scanner to work?

Posted by Sandra_Drago - 2020/07/10 03:03

Here you can get some of the very simple steps that you can follow and get solution. You can also able to resolve your issues yourself by following given steps.

- Turn on the computer
- Press f10 to boot
- Into the BIOS Setup and select Hard Disk Test.
- Restore the system.
- Turn on the computer and press f8
- Then select Boot into Safe Mode.
- If still have any error then visit my site and get complete solution.
