

Sync SBCGlobal Email Account to Gmail Account

Posted by selenawilliam0 - 2021/02/23 04:50

You can sync your SBCGlobal Email account with the Gmail account by following the steps mentioned below:

- You need to login to your Gmail account by entering the correct credentials and then click on the Settings option.
- Now you have to enable the IMAP settings that are found under the Forwarding IMAP/POP section.
- Here, you have to enter your Outlook email address and password.
- Now you must type the settings for the incoming mail and outgoing mail server.
- Follow the on-screen instructions for completing the syncing process.

You can even reach out to experts by calling SBCGlobal Support Number available 24*7 round the clock to help you fix the problem. This number will stay available at all hours for SBCGlobal email users without any time and location constraints.
