---

### TurboTax Customer Service

Password recovery issues usually arise when you are not able to access the password and reset it even by implementing the procedures. You can take a look at the general steps that can be issued for recovering the password and judge whether you were doing that correctly or not. And if you find that even after this, there occurs no chance of recovering the password, then for sure dial the TurboTax Customer Support.

- Open 'TurboTax accounts recovery page'.
- Now either enter the username or phone number and if you have not registered anyone, then click on 'Try something else'
- Enter the personal details and click to continue
- Follow the instructions based on the method that you have chosen.
- Recover the password and reset it immediately.
