Streaming services have replaced the physical formats and music download process in recent times. And the reason is the accessibility of millions of songs available online on streaming platforms. If you stream music online, you will not have to worry about the storage space at all. You can quickly discover new artists and bands as well.

Top 5 best music streaming apps:

- 1. Spotify
- 2. Tidal
- 3. Google Play Music
- 4. Apple Music
- 5. Amazon Music Unlimited
