If you wanted to get the developer's beta to use the new emojis, then do not worry. Apple rolled out iOS 13.2 public beta 2 for iPhones, and it is loaded with fixes. And well, all the brand-new emojis are included as well. Moreover, it comes with a Deep Fusion photography feature. The new emojis contain pinch, sloth, banjo, safety vest, stethoscope, etc. It is also packed with a quick action called the Delete app. Users do not have to press and hold for deleting apps now. To get this for your iPhone, follow the instructions mentioned below.

Create an Archived Backup of the iPhone

If you want to create an archived backup of the iPhone, then you need to follow the instructions given below.

- First of all, you have to connect the iPhone or into the Mac or Windows PC.
