I am a 3d and graphic artist and traditional artist. I have been using zbrush for 4 years as well as Photoshop, Blender, Art Rage and many other 3d programs. I have been painting and sculpting for 20 years. If you need some work done feel free to contact me via this forum or you may also visit my facebook page and post a message at me located here

I currently am in the process of setting up a 3d digital studio with 2 other senior partners for 3d modeling, animation, and video game modeling and sculpting as well. I will post some designs and set my store here in the next few weeks. I will include some jewelery designs as well some characters and other assorted examples of designs.
