

## BotFeeder 3D Printer Filament 1st Year Anniversary

Posted by botfeeder - 2014/06/02 15:53

---

Dear 3D Printer Users,

Thank you for all your supports. It has been an amazing time for BotFeeder in the U.S. & Canada. We are expecting to set up more distribution centers in the near future. In the coming years, we are expecting 3D Printing Industry to grow at an exponential rate. According to many analysts that we are in the 1st phase of the 3D Printing and more are coming.

BotFeeder as one of the leaders in 3D printer filament is excited to announce that we are setting up a new distribution center this summer at Los Anglos of the United States of America to serve our U.S. customers with faster and better service.

BotFeeder is also responding to the high demand in PLA Filament. BotFeeder PLA Filament is expecting to hit the U.S. and Canada markets as early as July 2014.

Best Regards,

BotFeeder Canada
