Kraftwurx will be attending Rapid 2012 with 3 employees. Although we will net be exhibiting this year, we will have an art piece on display and be on hand to talk to anyone wishing to learn more about our services and direction.

We felt that it was simply not time to display in a booth this year because we are working very hard to finish integrating phase 2 of the site which we expect to have done later this year. Our phase two goals will bring big changes to both functionality and capabilities as we begin unveiling Digital FactoryTM in phases.

As a 17 year member of the Society of Manufacturing Engineers, I have had the privilege of being involved with one of the worlds premier professional societies and RAPID is an amazing event. As you know 3D printing is gaining momentum in the industry and we (Kraftwurx) plan to be a part of the next Industrial Revolution.

We look forward to seeing you at RAPID 2012!
