

Phone Orders

Being a marketplace for custom products based solely online, Kraftwurx does not currently accept phone orders. However, you may use your phone's browser to access our site. We've made our site accessible for smart phones, iPods, ipads and the new android tablets too!

To maintain the integrity of your design, we ask that you utilize our online ordering process so that you may fully review and approve your purchase before proceeding with the order.

If you need assistance placing your order on the website, please contact our Support Team.
