

Kraftwurx is YOUR source for 3D modeling, photo-realistic rendering, prototyping and Digital Manufacturing

Turn your ideas into reality.

Scanning & Reproduction

Kraftwurx uses 3D scanners and advanced software to reproduce anything you need for your project. Send us your parts, broken or not... we scan them in 3D and reproduce them for you quickly and easily, often in less than 10 days!

This service is great for antique car parts and hard to find products AND add it to our database for future orders. You can even earn money off future sales!

Contact us directly to find out more about our scanning reproduction services.

Engineering & Design

Kraftwurx is a community of artists, engineers, product development experts and designers capable of turning your ideas into 3D models AND into consumer products.

Let us help you design a product and bring it to market. We can provide mechanical engineering and artistic talent including Industrial Design to turn your idea into reality. Kraftwurx offers you two services that meet everyone's needs. Click the links below to learn which is right for you!

Direct Digital Manufacturing

Kraftwurx is the worlds only truly custom manufacturer that turns your ideas into products and lets you sell them to the world.

Kraftwurx handles every aspect of manufacturing and sales so that you focus on what you do best...your designs and your ideas!

Kraftwurx can also handle bridge manufacturing of your products to traditional manufacturing if it becomes very popular. We have resources around the globe for traditional manufacturing services.
